

BUILDER SOLUTIONS US

The wood plastic composite profiles are ideal in many applications traditionally. Using PLASTIC of also many other products can benefit from the following attributes.

- ▶ Dimensional stability, longevity, natural feel
- ▶ Resistance to rot and crack
- ▶ Stable over a wide temperature range, weather-resistant
- ▶ Moisture resistant, low flame spread
- ▶ High impact resistant
- ▶ Outstanding screw and nail retention
- ▶ Environmentally friendly, recyclable
- ▶ Broad range of finishes and appearance
- ▶ Easily produced and easily fabricated
- ▶ Contains no toxic chemicals or preservatives

We can serve you with:

- ▶ Raw materials of WPC
- ▶ Shaped materials of WPC
- ▶ Products used in Landscape, Garden and Square, Indoor and outdoor
- ▶ Design and mate the landscape indoor or outdoor

It is safe, environmentally responsible alternative to traditional decks, conserving energy and resources. Not only does this save your time over the maintenance, but also it will save you money as well.
